Diabetes360™

When your patients need extra help with effective diabetes management, we are here to help.

We only see patients with diabetes

- Our goal is to provide specialized diabetes care to augment the overall care plan for your complex diabetes patients who need additional support.
- We will direct your patient to continue seeing you for their other healthcare needs.
- Follow up information, including clinic visit notes, will be sent to you so that you stay up to date on treatment plans and medications prescribed.

Appointments are available quickly

- Because diabetes management is an urgent matter, we're available to see your patients quickly. There is no wait list for an appointment.

Services available through our specialty diabetes clinic include:

- The latest in diabetes treatments and technologies for type 1, type 2 and gestational diabetes patients
- 24/7 access to our clinicians for urgent issues
- Diabetes self-management training with Certified Diabetes Educators that includes nutrition education, weight loss counseling, and assistance with medical device use
- Insulin pump management and continuous glucose monitoring (CGM) support
- Screening for other conditions that may be caused by diabetes

Use the form on the reverse side to refer a patient who needs additional assistance from one of our diabetes specialists.
